Mr. Webster expressed some surprize at a motion to inquire into the decisions of an officer invested with the powers and discretion of a judge, and which implied impropriety in the conduct of the officer. Mr. Williams assented to the wishes of Mr. Webster; and the resolution was accordingly ordered to lie on the table.

On motion of Mr. Lowndes;

Resolved, that the committee of ways and means be instructed to inquire into the expediency of amending the act, entitled, "An act to regulate the duty on tonnage; so far as relates to the duty on tonnage"

Gentlemen,—I herewith send you an extract from a letter this day received from a Merchant of the first respectability and a friend, dated Lisbon 13th Oct 1816. The object of the writer, is as you discover, to protect his countrymen from imposition.

"*Lisbon*, Oct. 13, 1816.

"A person calling himself Edmund Shanahan arrived here some time in Aug. ast from Cork, on his way to the U. S. as he represented, and having some money which he wished to invest in Bills on London, by favour, the person to whom he applied procured him the Bills, as follows:

10l. McDonnel Brothers, on McDonnel and Bushel.

21l. Eusabio de Souza, on Samuel Burn and Co.

50l. odd shillings, John Bulkely and Son, on J. Bulkley and Son—

All payable in London: a reward of 300l. ster. having been offered for his apprehension in consequence of altering some deeds in Cork, he feared to remain here long, but went to Cadiz, where I presume he extracted the writing in the body of the above bills by the means of oxigenated muratic acid gas, and filled the blanks thus:

640l. on McDonnel and Bushel.

1535l. 16 8 on James Burn and Co.

1800l. on John Bulkely and Son.

Such Bills having appeared in London, which the reputed drawers disavow. They were negociated at Cadiz, and the two latter have been accepted; it appears he proceeded from thence to Gibraltar, from whence it is supposed he will embark for America; and as I am credibly informed that he has letters of introduction to a respectable Merchant in Philadelphia. I wish if possible to prevent him from injuring any of my countrymen, and request you will give publication to the above statement. He is described, in a Cork paper, of the 6th of August, as about 5 feet eight inches in height, rather strongly made, of a florid complexion, and smooth skin, about 40 years of age, respectable appearance in his dress, downcast look, as if unwilling to meet the eye of the person whom he addresses, and generally has his hands one in the other before him."

The gentleman further remarks "All vessels are quarantined 20 days coming from the New England States, by an order just issued, having there the Typhus fever."

[The name of the writer is with the Editors.]

NEW-YORK, Dec. 4.

LATEST FROM ENGLAND.

We have been favored with the Bristol Mirror, of the 26th of October, received by the British brig Berwickshire, arrived yesterday; from which the following articles are extracted:

A letter from Merthyr enables us to give a satisfactory contradiction to the statements in some of the London papers, that the furnaces had been disabled, and were not again at work. We can add upon the best authority, that there have been no disturbances at Brecon.

"*Merthyr, Oct.* 24.

The iron masters in this neighborhood, from the continued reduction in the price of iron, found it absolutely necessary to give notice to the workmen, that their wages must be lowered. Without resorting to this measure, the works must have been suspended, and the greater part of the population thrown out of employment. The insurrection commenced on Wednesday the 16th inst. at the Tradegar Iron Works. The men there insisted upon the workmen in their neighborhood joining them; and when sufficiently formidable, amounting to several thousands, marched to Methyr, where they proceeded to stop the works, and compelled the men employed at them to join their standard. This was the only act of violence committed by the men. They appeared uniformly to respect private property; their object being, as they stated, an advance in their wages, to meet the present high price of bread. After having stopped the works here, they left the place, for the purpose of doing the same thing at the distant works, which they also effected. During their absence the magistrates were active in collecting a strong military force. Detachments of the 55th regiment arrived in waggons on Saturday; at the moment of their entry, the insurgents were returning, in great numbers, apparently more violent than at their first visit. Several magistrates, accompanied by Mr. Hale, the member for the county, resolved to disarm the men, who had provided themselves with large sticks. This was promptly carried into effect, by the 55th regiment, aided by the Cardiff and Swansea Yeomanry. The mob began to disperse, and several of the most active were secured, and committed to gaol.

"Every thing has since been resuming its former appearance; the works are going on, and matters look peaceable.

"The statement in several of the papers, of the intended reduction of the wages to 1s, per day, is erroneous. After the present reduction, the men will earn from 15s. to 25s. per week. Some few exceptions may be made, where they will earn but 12s."

LONDON, Oct. 24.

We have had various rumors in circulation to day, which, whether true or false, have had the effect to cause a considerable depression in the funds. It was reported that a secret correspondence had been intercepted between the court of Vienna and Bonaparte, and that the Austrian commissioner had been detected in an intrigue for Bonaparte's release; the rumor of a dissolution of Parliament was also revived. We have no reason to believe in the truth of either of the reports. Lastly, there was another report in circulation, which was considered much more feasible than the rest; namely, that the prospect of a speedy opening of our ports for the importation of corn, having caused a fall in the rate of exchange, the foreigners, who had been waiting an opportunity to sell, availed themselves of this circumstance, and disposed of their stock accordingly. What is to be depended on is, that a foreign broker, supposed to be in possession of some information, threw upon the market some hundred thousands of stock, which caused the depression we have noticed. Three per cent consols for the account fell from 62 1-4 to 61 1-2. They recovered towards the close of the market, and left off at 61 3-4 for money.

All the letters received to day from Merthyr Tydvil, of the 22d instant state, that the rioters continue quiet, but that the military daily increase. In consequence of a disposition to riot at Brecon, a strong force had been sent thither, to protect the several thousand stand of arms deposited there. The military now being in possession of the place, all apprehensions for the safety of the arms have ceased. One class of the workmen, called the pudlers, have been induced to return to their work, without a compromise, but these are the men who are paid the highest prices; there are four employed to each furnace. The colliers and miners, the persons who are paid the lowest wages, are still refractory, and have not returned to their work; but as the different works have a good supply of coal and iron material on hand, their services can be dispensed with for some time to come.

Galignani's Messenger (Paris paper) says, "the commercial house of Messrs. Belly, of our city, whose trade was mostly in the produce of English manufactures, has failed for 800,000 florins. This is the largest failure we have had for a long time, several English Commercial houses will be great losers."

It is definitively settled, we understand, on good authority, that the Duke of Kent will shortly lead a Continental Princess to the Hymeneal altar.

A Corporal's party of the guards is posted every night in Carlton House, or within the circuit. It goes on duty at 10, relieved at 2, and dismised at 6.

IN obedience to an order of the county court of Fairfax, we will, on Wednesday, the 18th day of December next, proceed to sell to the highest bidder, all that parcel or tract of land (now occupied by, and in the possession of Thomas Ogden of Thomas) belonging to the representatives of the late John Allison, deceased. This tract is believed to contain between 60 and 100 acres, tolerably well watered, with a good proportion in wood, bounded by Ravensworth, and the lands of William Cash, senior, Zachariah Ward and W. H. Foote, Esq. and about seven miles from Alexandria. A farther description is deemed unnecessary, as it is presumed any person inclined to purchase would view the premises, which will be shewn on application to the tenant Thomas Ogden of Thomas. The terms will be, one third cash, and bonds with approved security for the balance, payable in 12 and 18 months.—The sale to take place on the premises, and will commence at 11 o'clock, at which time and place due attendance will be given by the

MANY.

The evidence in favor of Mr. Lee's decision, is so manifest to every man in the district, that it is matter of astonishment how a question respecting its correctness, could have arisen in the mind of any dispassionate man. The general well known truth (felt & experienced by every individual who owns a house in Bladensburg, Washington, or Georgetown) that the British never attempted to injure private property, but confined their attacks to those edifices merely, which were known to be public property, or in the use and occupancy of the military servants of government, will bear out Mr. Lee in his decisions.

FROM OUR CORRESPONDENT AT WASHINGTON.

Friday, Dec. 6.

I forgot to mention in my last letter that our worthy pastor the Reverend Mr. Addison, was elected Chaplain of the House of Representatives, an appointment which has given universal satisfaction. This day the Rev. Mr. Glendy was elected Chaplain to the Senate. Indiana may now be considered as one of the States, as a resolution to admit it to that rank has passed the Senate unanimously—was read in the House of Representatives twice, and only waits the usual forms to pass into a law.

The practice of setting up Unchartered Banks which has been attended with such mischievous effects will probably meet with its death warrant in a few days—A committee has been appointed to enquire into the expediency of prohibiting them, and of stopping the circulation of the notes of such banks within the district. The public are indebted for this measure to Mr. Tucker of Virginia.

The President has sent a message to Congress stating that "the act authorising payment for property lost, captured or destroyed by the enemy, while in the military service of the United Sates," having received a construction of too great and uncertain extent, he had thought proper to suspend proceedings under it until Congress should have an opportunity of defining more precisely the cases they had in contemplation, and recommending the subject to their consideration.

Grounded on this Message, three Resolutions were offered to the House of Representatives, by Mr. Forsyth. The first requesting the President to lay before the house, the proceedings of the Commissioner under that act. The second, requesting him to order the further execution of the act to be suspended until the subject should be disposed of by the House. And the third, requesting the President to inform the House whether the judgments of the commissioner, under that act, had been paid by the treasury, and by what authority, and out of what fund. The second of these Resolutions was opposed by Mr. Yancey, Mr. Webster, and Mr. Johnson, on the grounds that it was not competent to the House to order a suspension of a law—and that if the law was bad, it could only be got rid of by a formal repeal. Mr. Webster gave it as his opinion that, even supposing the house should utter a Resolution to suspend proceedings under the law, the officer acting under it was not only not bound by, but could not legally obey that resolution. These objections proved fatal to the second Resolution, which was accordingly rejected. The first and third, however, passed.

These resolutions being thus disposed of, another embracing the same topic was offered for the adoption of the house, by Mr. Williams of N. C. in support of which resolution, he stated two instances of erroneous decision made by the commissioner:—One in the case of a house belonging to Mr. Carroll—the other, in the case of a house belonging to Mr. Ringold which were burnt by the British in their invasion upon this District, for both of which payment was allowed by the commissioner, as if their had been all the time in the occupation or service of the military; when it was known they were altogether private property. Mr. Williams handsomely remarked that the character of the commissioner, forbid all suspicion of *corrupt motives;* but that he believed the decision of that gentlemen to have been erroneous. If Mr. Lee could shew that he had evidence to justify his decision, he would have an opportunity of shewing it. But at all events, the house should take effectual steps to insure correct decisions in all cases under the act.—The amount of the resolution was to appoint a committee to enquire into the decisions of T. B. Lee, esq. with power to call for persons and papers. Which was agreed to.

Extract of a letter from the Captain of the brig Sidney Crispin, of N. York, to his owner in the city of New York, dated Aux Cayes Bay, Nov. 2.

On my arrival at Cape Henry I was taken, with another gentleman, on shore, where we were met by Prince John and all his nobility, in presence of a part of his army. After a great display of manœuvers, the Prince and Governor and the other officers, walked up to us. The Prince asked me, "Where did you come from?" "From N. York," I replied. He then enquired my name, the name of my vessel and where were my papers? "How long is it," said he, "since you changed your name? I know your brig; she has been trading with Petion." After threatening us with death, etc. he said, "instantly leave the port!" When three cheers were given by the soldiery. We were pushed into the boat, and seven other boats followed us, who towed us out. This was all done in the space of two hours after we anchored. I then stuck her away for this port; and, owing to calms and head winds have had seven days passage.

PROCEEDINGS

Of the Electoral College of Virginia.

The Electors of President and Vice President of the United States met in the Senate Chamber, on Tuesday last, to see whether all the Electors chosen by the people were present, and if not, to make the necessary arrangements thereupon. Spencer Roane, Esq. one of the Judges of the court of appeals, was called to the chair, and Theodosius Mansford, Esq. (Clerk of the Senate) was chosen secretary. Six of the Electors were absent viz. Mack Alexander, Branch T. Archer, Geo. Penn, Wm. G. Pendexter, John Dixon and John Webster.

In this case, the law of Virginia provides, that if any elector does not appear by such an hour of the day previous to the election, the Legislature is to supply the vacancy by the appointment of some person who lives within the district of the absentee: and if the elector chosen by the people does not appear by 10 o'clock on the day of the election, the one appointed by the legislature is to supply his place. In compliance with this provision, a letter was addressed by the president of the College on Tuesday, to the Legislature, apprizing them of the non-appearance of several of their members; whereupon, the legislature proceeded to fill the vacancies, by the joint ballot of both houses. Robert E. Stark, of Greensville, was chosen to supply the place of Mark Alexander; William Archer, of Powhatan, that of Branch T. Archer; Benjamin Cook, of Franklin, that of Geo. Penn; Wm. Brockenborough, of Richmond City that of Wm. G. Pendexter; Daniel Morgan, of Jefferson, that of John Dixon; and John Edie, of Brooke, that of John Webster.

At 10 o'clock yesterday the College again met in the Senate Chamber.

After the names of the members were called over, to see that they were all present, the President of the college requested them to prepare their ballots for President of the U. S. The clerk then called over the names of the electors in the order in which the districts from which they were selected, are arranged in the law; and as each one was named, he rose from his seat and deposited his ballot in the box.

Messrs. Stewart [of Augusta,] Holmes [of Frederick,] and Taylor [of Orange] were chosen a committee to examine the ballots.—As each ballot was opened, its contents were audibly and successively pronounced by the members of the committee. The ballots with little variation ran thus, "James Monroe, now Secretary of State, of the U. S, to be President of the U. S."

Mr. Steuart reported, that they had examined the ballots, and found that 25 votes had been given, and that they were for James Monroe.

The President of the College then requested that the gentlemen would prepare their ballots for Vice President of the U. States. The same order was observed in depositing and counting the ballots.

Mr. Steuart reported, that the committee had examined the ballots and found, that the twenty five votes were given for Daniel D. Tompkins now Governor of New York, to be Vice President of the U. States.

Some arrangements were made as to the certificate of election and the appointment of a person to bear the copy of the certificate to the seat of government of the U. S. when the College adjourned sine die.

"Captain George Demolt, of H. B. M. late sloop of war Brissies, presents his most grateful acknowledgments to captain Porter, of the United S. sloop of war Boxer, for his very ready and prompt offer of assistance; but having succeeded in getting all his people from the wreck, he determined to remain by the stores, &c. that were saved from the brig until vessels arrived from Havanna, which will enable him to remove those articles to that place. JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,

Have just received from LEE'S PATENT MEDICINE Store, No. 46 Maiden Lane, N. York.

A FRESH SUPPLY

Of the following genuine Medicines.

For the prevention and cure of Bilious and Malignant Fevers, is recommended

Hahn's Anti-Bilious Pills.

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern & Middle States, particularly in N. York, Philadelphia, Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age.

They are excellently adapted to cary off superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration and thereby prevent colds which is so often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz.—The Teres, or large round worm; the Ascarides, or small maw-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Tenia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children?"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number, when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout asthmatic gout, palsy, lumbagoo, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc.

The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellant minerals, (the basis of other lotions) and of unparralled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c. The Persian Lotion operates mildly, without impeding the natural, insensible perspiration, which is essential to health, yet its effects are speedy and permanent, rendering the skin delicately soft and smooth and improving the complexion.

The Restorative Powder for the teeth and Gums.

This excellent preparation comforts and strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all the acrimonious slime and foulness, which suffered to accumulate, never fails to injure and finally ruin them.

Hamilton's Grand Restorative.

Is recommended as an invaluable medicine for the speedy relief and permanent cure of the various complaints resulting from dissipated pleasures, juveuile indiscretions, residence in climates unfavourable to the constitution, the immoderate use of tea, frequent intoxication or any other destructive intemperance the unskilful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad lyings in, &c.

HAMILTON'S ELIXIR.

Sovereign remedy for Colds, obstinate Coughs, Asthmas, sore throats, and approaching Consumptions, and most disorders of the breast and lungs.

Hahn's genuine Eye Water.

For the cure of agues, remittent, and intermittent fevers.

Han's true & genuine German Corn Plaister.

☞ At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.

SULLY FOR SALE

THIS estate, situated in the county of Fairfax, twenty-two miles from Alexandria and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil which was originally excellent, has for some years past had the advantage of improving husbandry, Plaister of Paris acting with powerful and immediate effect on all grasses and grains.
